Summary

Software Engineer with **2.5 years** of experience building web, mobile, and desktop applications using **Angular, React.js, Flutter, Python, Django, Ionic, and Electron.js**. Skilled in REST APIs, PostgreSQL, HL7 integration, and Tailwind CSS.

Professional Experience

Software Engineer

MyFluiditi Software Solutions

06/2026 – Present
chennai

- Built modules for **Medical Billing, Claims Management, Payment Processing, and Provider Management**. Developed and integrated REST APIs using Django REST Framework for secure healthcare data exchange.

Software Engineer

Yangoos Technologies

01/2024 – 05/2026
chennai

- Developed **POS & KOT** applications using **Angular, Ionic, and Electron.js**, implementing offline data storage, synchronization, and REST API integration.
- Built **Betting Management** modules and dashboards using **Angular**, with authentication, authorization, and REST API integration.
- Developed **Import & Export Shipment Tracking** web and mobile applications using **React.js** and **Flutter**, integrating real-time REST APIs.
- Built **Medical Billing & Healthcare Automation** applications using **React.js, Flutter, Python, Django, and PostgreSQL**, implementing patient management, billing, claims, payments, and **HL7** message processing.
- Developed a **Flutter-based Job Portal** application with job search, filters, profile management, job applications, and REST API integration.

Skills

Frontend: Angular, React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap 5

Mobile: Flutter, Ionic

Desktop: Electron.js

Backend: Python, Django, Django REST Framework, REST APIs

Database: PostgreSQL

Healthcare: HL7, Medical Billing, Patient Management, Appointment Scheduling, Claims, Payments

Tools: Git, GitHub, Postman, VS Code, Android Studio

Deployment & DevOps: Git, GitHub, Linux, Nginx, Gunicorn, Docker, Play Store Deployment

Projects

- **Medical Billing & Healthcare Automation:** Patient management, appointments, billing, claims, payments, HL7 integration, Django REST APIs.
- **Offline POS System:** POS billing, KOT, offline sales, Electron desktop application with local file storage.
- **Shipment Tracking System:** React.js and Flutter application for import/export logistics.
- **Betting Platform:** Angular-based dashboard with authentication and REST API integration.
- **Resume Builder App (Flutter):** Developed a mobile application to create, edit, preview, and export professional resumes with customizable templates.
- **Vault Manager (Flutter):** Built a secure password and document manager with encrypted local storage.
- **Auto Scroll App (Flutter):** Developed an application that automatically scrolls screen content with adjustable speed for hands-free reading and presentations.
